

Science goes bang!!!

It's science week for Gladstone Primary.

All of our year groups and Foundation stage have done special experiments for this fantastic event.

Nursery

In nursery they have been exploring what plants need to grow and survive.

Reception

With interest, reception have put flowers in different coloured water to see how it changes. They went on a spring treasure hunt too!

Year 1

Interestingly, year one have enjoyed writing a recount about the dinosaur who pooped the past! Also, their favourite page is when poo is shouted out loud on the page.

Year 2

For science week, year 2 have had their

minds blown, when they planted beans and placed them in different places.

Year 3

Year 3 have had a sports nutritionist in their class room, to speak to them about exercise and healthy eating.

Year 4

Year 4 went to Sudbury museum because of their topic; The Chronicles of Narnia.

Year 5

With excitement, Year 5 have been experimenting with balloons and rocket races , learning about friction.

Year 6

Year 6 have been on a trip to Manchester museum to look at the Ancient Egyptians but they found rocks as well. For science week year 6 have been learning about soil for science week and thinking about questions to do with soil.
